Be it resolved by the people of the state of Missouri that the Constitution be amended:

To prevent mandates of vaccines or ingestion of other medications.

Article XXI.

Sec. 1. Medical Rights

No vaccine or other medications may be mandated by any government, subdivision, or agency thereof or other private organization or party, unless,

- (a) It has been in existence and successfully tested for at least 20 years without significant modification;
- (b) It has been developed primarily by use of inactivated toxins, or whole bacteria or virus, or parts of them, and is not an RNA vaccine; and
- (c) The majority of the state legislature has not at any time objected to such mandate.

Sec. 2. Medical Claims

The provider of any vaccine, which does not comport with the requirements of Sec. 1(a) and (b), which are administered in this State, shall be required for twenty years to escrow seventy-five percent of revenues for the purpose of paying medical claims. Such revenues shall be escrowed into an account established and controlled by the state legislature. Such account shall be directed by a health commission established by the state legislature to pay any health claims or compensation for injury or death associated with the vaccine, according to a schedule established by the state legislature. The payment of claims shall be ongoing during the twenty years. The balance remaining in such fund at each year-end, if any, shall be released to the provider of such vaccines on the following schedule:

- 1. One-tenth, after eleven years;
- 2. One-ninth, after twelve years;
- 3. One-eighth, after thirteen years, and so forth until;
- 4. All remaining funds, after twenty years.
